1. Introduction

Manage for TEOS gives organizations the power to transform their workplace so that device management is streamlined, usage of space is optimized, energy costs are reduced, communication is targeted, and worker productivity is amplified.

It's the most dynamic workplace management solution.

More information on <https://teos.solutions>

2. Main Features improvements for version 3.4

Item	Function descriptions
New content creation/Signage	We have our new content creation module: • Easier workflow for creating content • Less steps in a presentation flow • Live view of the result in the content editor • Link directly a fullscreen image or video for content
Wayfinding in Signage	• It is now possible to integrate your wayfinding solution in your regular signage presentation • Fully customize your wayfinding workflow
Dailymotion integration	• You can now add and view Dailymotion videos in your Signage presentation
New Compatible devices	New devices have been added to the list of compatible devices are: ○ Up to Android 15 depending on devices is supported.

Sensor Listener Service for TEOS	1.3
Control for TEOS for Windows	1.1.0
TEOS Universal Add-in (Outlook plugin)	1.1

5. License options

The changed business model was reverted back in 2025. New business model is now also reflected from this new TEOS 3.4 version.

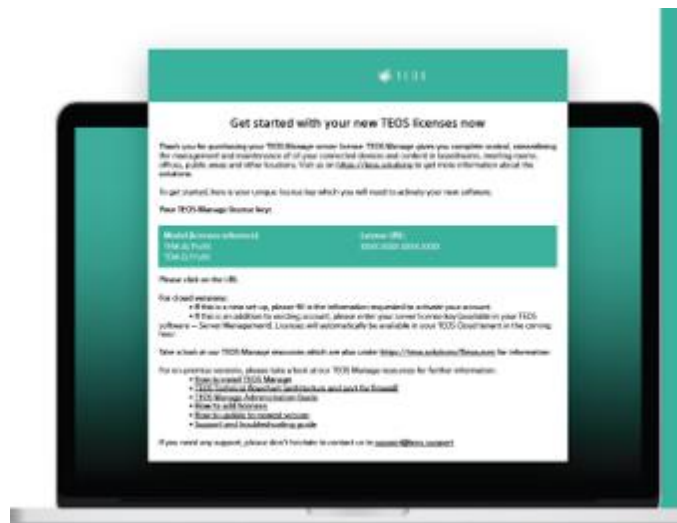

License name	Description	New licenses
TEC-SC100	Connect for TEOS mirroring Solution for BRAVIA BZ models and Android Player compatible	No license changes
TEM-ENTCLxY (1,3 or 5 years)	Manage for TEOS SAAS, workplace management for small and medium companies.	This license is re-introduced
TEM-ENT350	Manage for TEOS on-premises, workplace management for small and medium companies. Includes 4h remote support and setup for local installation, one-time fee	The same license remains
TEM-SP30.xY	License to make rooms available for sensors and to make them bookable in the Employee App	The same license remains
TEM-ALxY (1,3 or 5 years)	TEOS Reception per device: TEM-RE30.xY TEOS Wayfinding per device: TEM-WF30.xY TEOS Signage per device: TEM-DS30.xY TEOS Room booking per device: TEM-RB30.xY TEOS Meeting display per device: TEM-MR30.xY	Replaced by a single license: TEOS Manage Advanced License for signage, room booking, mirroring & more
TEM-ELxY (1,3 or 5 years)	TEOS Manage Entry License to control devices	The same license remains

As TEOS Solutions, we receive a license order. We will send back an email with a unique URL link to our <https://teos.solutions> platform.

a. For a new installation: The integrator or the end user will just have to fill in the information requested on the link. Account will be activated the same day.

b. For an existing account: integrator/end user just must enter the related server license key (available in their TEOS software → Server Management). Licenses will automatically be available in your TEOS Cloud tenant in the upcoming hour.

This e-mail is then to be sent to the integrator or the end user, depending on who will perform the operation.

For on-premise installation the same URL is sent to assign licenses to the license key visible in the server **XXXX-XXXX-XXXX-XXXX**. When assignment is done you can download a new license file to upload to the on-premise server.

This license includes the Server license to install TEOS software and contains the device licenses. When installing the TEOS server, you must go to <https://teosmanage.com> to register your licenses and link it with your Server Key. Download the license file and upload it into Manage for TEOS

TEOSMANAGE

Insert server license key:
XXXX-XXXX-XXXX-XXXX

Number of Simple Control licenses: 100
Number of Meeting Room licenses: 100
Number of Signage licenses: 100
Number of Tablet licenses: 100
